SIS Certifications Joins *PHD Chamber of Commerce and Industry* (PHDCCI)

SIS Certifications Joins PHD Chamber of Commerce and Industry (PHDCCI)

SIS Certifications Pvt. Ltd. has joined the PHD Chamber of Commerce and Industry (PHDCCI), strengthening its presence within India's industry network.

Established in 1905, PHDCCI is one of India's leading industry bodies, bringing together businesses, policymakers, and industry leaders across sectors. Known as the "Voice of Industry and Trade," it provides a platform for organisations to connect, share knowledge, and stay aligned with industry practices.

Commenting on the development, Managing Director Arunendra Dvivedi said, "The membership will help build stronger collaboration across industries, helping organisations improve quality, stay compliant, and align with global standards."

Through this association, SIS Certifications is expected to take part in industry discussions and knowledge-sharing initiatives, helping organisations stay updated with evolving compliance requirements and certification practices.

Publication of ISO 14001:2026 Sets New Global Benchmarks for Environmental Excellence

ISO 14001:2026 published – Raising the Bar for Environmental Performance

The International Organization for Standardization has published ISO 14001:2026, the latest version of its globally recognized environmental management standard. The new edition is designed to help organizations manage their environmental responsibilities more clearly, effectively, and practically.

Today, businesses across the world are facing growing pressure to prove that they are taking environmental responsibility seriously. It is no longer enough for organizations to simply say they care about sustainability. They are now expected to show clear action, measurable progress, and long-term commitment.

WuXi Biologics Secures ISO 13485 Certification for Combination Products

WuXi Biologics Secures ISO 13485 Certification for Combination Products

WuXi Biologics has achieved ISO 13485:2016 certification, a globally recognized standard for medical device quality management systems. The company cleared the audit with zero non-conformities, underscoring the strength of its quality framework and manufacturing capabilities.

WuXi Biologics becomes one of the first companies in China's drug-device combination product space to earn this certification. The process involved a comprehensive multi-day audit, where the company demonstrated the effectiveness and reliability of its operational systems.

“Successfully achieving ISO 13485 certification reflects our technical depth and disciplined quality management,” said WuXi Biologics CEO Chris Chen, PhD. “We will continue to uphold rigorous quality standards and reliable operations to deliver safe, efficient and high-quality solutions.”

According to WuXi Biologics, it developed its new system by expanding on its existing manufacturing practices.

ISO 14001:2026 Strengthens Sustainability Framework amid Rising Global Expectations

ISO 14001:2026 Strengthens Sustainability Framework amid Rising Global Expectations

As environmental expectations continue to rise globally, the updated ISO 14001 standard introduces a stronger framework to help organisations align sustainability with long-term growth and resilience. New research highlights that ISO 14001 is among the most widely adopted management system standards. It is linked to a significant reduction in greenhouse gas (GHG) emissions.

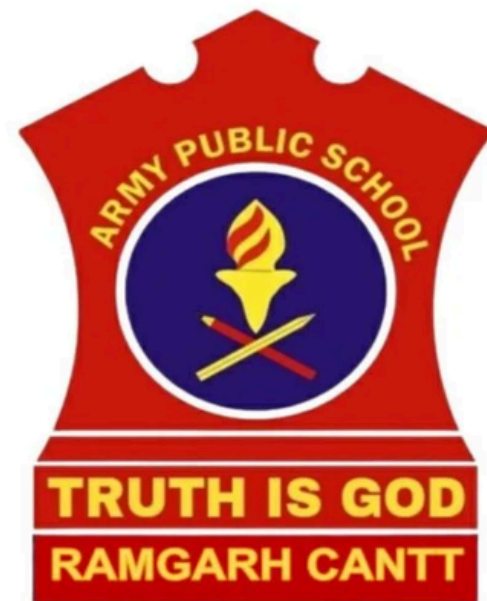

The research showed a 0.14% decrease in GHG per unit of GDP, with a 1% increase in ISO 14001 adoption, reinforcing the trust and benefits of the ISO 14000 family and affirming the relevance of the new edition, which was launched by ISO on April 15th. ISO 14001 has been adopted by more than 6, 70,000 organizations globally. With the release of ISO 14001:2026, the structure has been further aligned with current environmental priorities, which include biodiversity and climate change.

ARMY PUBLIC SCHOOL RAMGARH CANTT Certified for ISO 21001:2018

ARMY PUBLIC SCHOOL RAMGARH CANTT received ISO 21001:2018 Certification

ARMY PUBLIC SCHOOL RAMGARH CANTT has achieved ISO 21001:2018 certification after a successful audit. This milestone shows that the school is committed to managing its academic activities and school operations in a reliable and structured manner.

Scope

Imparting Quality Education to Students from Class 1 to Class 12.

What is ISO 21001:2018 Certification?

ISO 21001 is an effective Educational Organization Management System (EOMS), the purpose of which is to ensure that academic institutions such as colleges, schools, and universities consistently recognize and meet the highest quality standards in imparting education to their students, while also ensuring an efficient process for all internal and external stakeholders.

ARTELIA AIRPORTS Adopts Quality and Occupational Health and Safety Practices with ISO 9001:2015 and ISO 45001:2018 Certifications

ARTELIA AIRPORTS has completed the Surveillance-01 audit and received a favourable recommendation for the continuation of their IAS-accredited ISO 9001:2015 certification and ISO 45001:2018 Certification. It is indicative of the company's sustained efforts to improve its systems by defining processes in an orderly and clear manner.

The organization has set out to leverage the certification for strengthening its commitment to consistent quality management and operational practices. Reflecting a collective effort, whether at the group or unit level, these standards are an important requirement for any business or organization.

SIGN-AGE (INDIA) PVT. LTD. has achieved ISO 9001:2015 certification from an IAS-accredited certification body for its quality management system. The attainment of this certification demonstrates SIGN-AGE (INDIA) PVT. LTD.'s commitment to quality, with customer satisfaction at its center, continual improvement, and risk management in its ongoing processes.

Achievement of this certification reflects the team's dedication towards doing the right things every time and building lasting trust with customers.

Scope: Manufacturing And Supply of Portable Display Stands, Super Wide Format Printing, Retail Graphics, Point of Purchase Signs, Modular Display, Exhibition Posters, Graphic Display, Shop Facia, Rotary Translate Display and all Kind of Roll-up/Roll on Banner Stands, Steel & Metal Fabrication and Civil & Interior Works.

Sri Annapurna Foods received ISO 22000:2018 and HACCP Certifications

Sri Annapurna Foods has successfully completed the Surveillance-01 audit and received a favourable recommendation for the continuation of ISO 22000:2018 Certification for Food Safety Management System (FSMS) and Hazard Analysis Critical Control Point (HACCP). ISO 22000 and HACCP signify trusted food safety. They ensure every step, from sourcing to serving, is monitored, controlled, and risk-free.

The scope of the certification includes Manufacture and Supply of Pure Vegetarian Food Items, Sweets, Namkeen and Bakery Products.

Advantages of ISO 22000:2018 and HACCP for Sri Annapurna Foods

ISO 22000 certification offers Sri Annapurna Foods a system driven by global safety standards. It reflects a clear framework that manages food safety responsibilities across every stage of production. It aligns internal processes with international expectations and shows the organization's commitment to structured operations that support safe and controlled food handling.

CARI Elevates AYUSH Diagnostics with Global ISO 15189:2022 Certification

Strengthening quality healthcare in the AYUSH sector, the Central Ayurveda Research Institute (CARI) in Bengaluru has secured ISO 15189:2022 accreditation for its clinical laboratory, becoming the first institute under the Central Council for Research in Ayurvedic Sciences (CCRAS) to achieve this.

According to Asianet News, the Ministry of Ayush has emphasised accuracy, reliability and safety of diagnosis along with globally accepted standards. The Ministry also highlighted the progress of the lab from a NABL-certified facility to a completely accredited centre of excellence, thereby strengthening the credibility of AYUSH-based diagnostics.

Highlighting the role of international accreditation in improving diagnostic accuracy and patient care standards, Prataprao Jadhav, the Minister of State (Independent Charge) for the Ministry of Ayush, stated that the Ministry continues to enhance AYUSH institutions to meet global standards.

SOMGAS TRADE Moves towards Stronger Quality, Environmental, and Safety Practices with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 Certification

SOMGAS TRADE has received ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certification by an IAS-accredited certification body. The certification displays that the company has stepped up to improve its systems by defining processes clearly, managing environmental responsibilities, and ensuring workplace safety.

The attainment of this certification demonstrates SOMGAS TRADE's commitment to quality, with customer satisfaction at its centre, along with environmental responsibility and occupational health & safety, and continual improvement with risk management in its ongoing processes. This achievement also reflects the team's dedication to doing the right things every time and building lasting trust with customers.

ISO 9001:2015 is the international standard for quality management. This ISO standard enables organizations to follow clearly defined processes in building their products and carrying out their services. This certification ensures that work is carried out in an orderly manner, tasks are defined, and each step meets the customer's requirements. ISO 14001:2015 focuses on environmental management by helping organizations reduce their environmental impact, while ISO 45001:2018 ensures a safe and healthy workplace by identifying and controlling occupational risks.

Auto Foam Industries Receives ISO 14001:2015 and ISO 45001:2018 Certifications

Auto Foam Industries has successfully completed the certification audit for ISO 14001:2015 Environmental Management System (EMS) and ISO 45001:2018 Occupational Health and Safety Management System (OHSMS), accredited by IAS.

This achievement reflects the organization's structured and systematic approach toward environmental management and workplace safety, aligning with international standards and industry best practices.

Scope of Certification

The scope includes the Manufacturing of Foam Tapes, Foam Gaskets, Foam Parts, Foam Packagings, EPT Sealers, Felt Parts, Silencer Felts, Synthetic Fiber Felts, EPDM Packagings, PVC Covers Tab Tapes, and Protection Packagings.

Key Benefits of ISO 14001:2015

- Establishes a structured framework to manage environmental aspects and impacts
- Enhances compliance with environmental regulations
- Promotes efficient use of resources and waste reduction
- Strengthens corporate image and stakeholder confidence

Auto Foam Industries Certified for ISO 14001:2015, ISO 45001:2018

Alok Masterbatches Private Limited Strengthens Quality, Safety, and Environmental Commitment with Integrated ISO Certifications

Alok Masterbatches Private Limited has strengthened its approach towards quality, environmental responsibility, and workplace safety with the achievement of ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018.

A successful implementation of these three standards symbolizes that the company is not only focused on producing high-quality products but also prioritizes the safety of workers and environmental protection.

These standards will help improve the operations of Alok Masterbatches Private Limited while reducing risks with better delivery outcomes.

About the Certifications ISO 9001, ISO 14001 & ISO 45001
ISO 9001, ISO 14001, and ISO 45001 provide a comprehensive framework for companies to manage their operations across various areas. ISO 9001 supports quality excellence, ensuring a clear definition of processes, and ISO 14001 identifies activities that impact the environment and takes steps to reduce the impact. ISO 45001 focuses on identifying workplace risks and preventing accidents by improving safety practices. These standards support companies in formulating a structure that is focused on quality, safety, and environmental sustainability.
