**NAARI PHARMA PRIVATE LIMITED**  
Certified for ISO 9001:2015, ISO 14001:2015  
ISO 45001:2018

## **NAARI PHARMA PRIVATE LIMITED Strengthens Quality, Environmental Responsibility, and Workplace Safety with Integrated ISO Certifications**

NAARI PHARMA PRIVATE LIMITED has strengthened its commitment to quality, environmental responsibility, and workplace safety by achieving ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certifications.

The successful implementation of these internationally recognized standards demonstrates the company's dedication not only to delivering high-quality products but also to ensuring employee safety and environmental protection. These certifications support improved operational efficiency, reduced business risks, and enhanced overall performance.

About the Certifications

ISO 9001:2015 focuses on quality management by establishing well-defined processes that help organizations consistently meet customer and regulatory requirements. ISO 14001:2015 provides a framework for identifying and managing environmental impacts while promoting sustainable practices and environmental responsibility. ISO 45001:2018 helps organizations identify workplace hazards, reduce occupational health and safety risks, and create safer working environments.

**STRESSCRETE PVT. LTD.**  
**Certified for ISO 9001:2015**

**STRESSCRETE PVT. LTD.**

(A Unit of AL Batra Group)

## **STRESSCRETE PVT. LTD.** **renewed ISO 9001:2015** **Certification**

STRESSCRETE PVT. LTD. renewed its IAS-accredited ISO 9001:2015 Certification for Quality Management System (QMS) to deliver high-quality goods and services.

The scope of the certification includes Manufacture and Supply Monoblock, Prestressed Concrete Sleeper.

What is ISO 9001:2015 Certification?

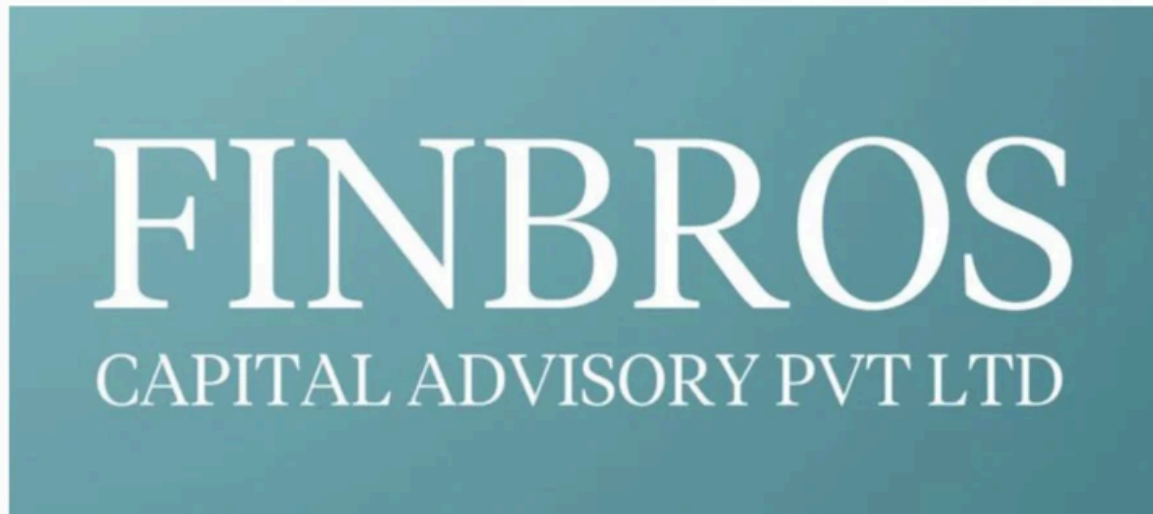

ISO 9001:2015 certification defines the requirements for establishing an effective Quality Management System (QMS) that helps organisations consistently meet recognised quality standards.

The standard focuses on improving customer satisfaction through systematic processes, risk-based thinking, and continual improvement. It also ensures that organisations comply with applicable legal and regulatory requirements while aligning their operations with customer expectations. Businesses demonstrate their ability to consistently deliver reliable products and services that meet the needs of both clients and regulatory authorities.

**FINBROS CAPITAL ADVISORY PRIVATE LIMITED**  
Certified for ISO/IEC 27001:2022

## **FINBROS CAPITAL ADVISORY PRIVATE LIMITED Achieves ISO/IEC27001:2022 Strengthens Information Security Framework**

FINBROS CAPITAL ADVISORY PRIVATE LIMITED has successfully achieved ISO/IEC 27001:2022 certification. It reflects the company's focus on strengthening information security across its digital financial platforms and fintech operations. This achievement highlights the company's emphasis on secure information handling, risk management, regulatory compliance, and continual improvement across its operations.

About ISO 27001:2022

ISO/IEC 27001:2022 secures organizations' information and data. This standard, through its clauses 4 to 10, reduces cyber risks while ensuring regulatory compliance and minimizing legal and financial exposure.

Scope of Certification

Development, Operation, and Management of Technology Platforms, Digital Portals, Mobile Applications, Software, and Websites used for Delivering Financial Products and Fintech Services, Including Lending, Payments, Investments, Insurance, and Advisory Services. It also includes Acquisition, Processing, and Sharing of Customer Leads with Banks and NBFCs for Loan Facilitation Services.

## **VOCKAM Bagged ISO/IEC 27001:2022 for Information Security Framework**

VOCKAM has successfully completed the initial audit for IAS-accredited ISO/IEC 27001:2022 certification.

The scope of the management system covers EvaluationsHub & InitiativesHub, a SaaS-based SRM and B2B Customer-Success Collaboration Platform, Including Supplier Management, Evaluations, Feedback, Compliance Monitoring, Data Processing, Integrations, and Support Activities. It also Includes all Associated Systems, Infrastructure, Personnel, and Processes Involved in Ensuring the Secure Handling of Customer and Supplier Data.

VOCKAM can also apply for ISO/IEC 27701:2019 Certification for Privacy Information Management System (PIMS) and ISO/IEC 42001:2023 Certification for Artificial Intelligence Management System (AIMS).

## Ganpati Electricals (P) Ltd Private Limited received ISO 9001:2015 Certification

Ganpati Electricals (P) Ltd has completed the Surveillance-01 audit and received a favourable recommendation for the continuation of their IAS-accredited ISO 9001:2015 Certification for Quality Management System (QMS).

The scope of the management system includes Supply, Installation, Testing, Commissioning and Maintenance of Electrical, Electronics, Mechanical and Telecom System. Ganpati Electricals (P) Ltd can also apply for ISO 14001:2015 Certification for Environmental Management System (EMS) and ISO 45001:2018 Certification for Occupational Health and Safety Management System (OHSMS).

What is ISO 9001:2015 Certification?

ISO 9001:2015 is an internationally recognised quality management standard that helps organisations implement a process-oriented approach to maintain consistent product and service quality. It supports effective operational monitoring to meet customer and regulatory expectations while encouraging continual improvement, risk management, error reduction, and operational efficiency.

## **Infanion Software Solutions India Pvt Ltd. bagged ISO/IEC 27001:2022 Certification**

Infanion Software Solutions India Pvt Ltd. has completed the Surveillance-01 audit and received a favourable recommendation for the continuation of their IAS-accredited ISO/IEC 27001:2022 Certification for Information security, cybersecurity and privacy protection – Information security management system (ISMS).

The scope of the Information Security Management System applying in Design and Custom Development of Web & Mobile Applications, AI Implementations, RPA Implementations, Product Development, Maintenance & Support, Cloud Services and the Integrations of all Kinds of APIs, Third-Party Software, and Micro-services.

Infanion Software Solutions India Pvt Ltd. can also apply for ISO/IEC 27701:2019 Certification for Privacy Information Management System (PIMS) and the General Data Protection Regulation (GDPR) to ensure data confidentiality, integrity, and availability.

## **Infanion Software Solutions India Pvt Ltd. bagged ISO 9001:2015 Certification**

Infanion Software Solutions India Pvt Ltd. has completed the Surveillance-01 audit and received a favourable recommendation for the continuation of their IAS-accredited ISO 9001 Certification for Quality Management System (QMS).

The scope of the Quality Management System applying in Design and Custom Development of Web & Mobile Applications, AI Implementations, RPA Implementations, Product development, Maintenance & Support, Cloud Services and the Integrations of all Kinds of APIs, Third-Party Software, and Micro-Services.

Infanion Software Solutions India Pvt Ltd. can also apply for ISO/IEC 27701:2019 Certification for Privacy Information Management System (PIMS) and the General Data Protection Regulation (GDPR) to ensure data confidentiality, integrity, and availability.

What is ISO 9001 Certification?

ISO 9001 certification helps organisations improve their processes, deliver consistent products and services, and meet customer requirements effectively. The certification also supports better efficiency by reducing errors and supporting continual improvement.

## Skype Energy Limited received ISO 9001:2015 Certification

Skype Energy Limited has completed the initial audit for IAS-accredited ISO 9001:2015 Certification for its Quality Management System (QMS).

The scope of the management system includes

- Consultancy Services for Oil & Gas/Energy Industry
- Flow Assurance.
- Specialist Cleaning (Tank and Vessel Cleaning/Desanding)
- Valve Recertification, Installation and Maintenance.
- Electrical, Automation & Instrumentation Services.
- Procurement & Sourcing.
- Training & Consultancy Services.
- Cathodic Protection and Corrosion Services.
- Chemical Supply.
- Laboratory Analysis.
- Manpower & Equipment Supply.
- Hydro blasting And Heat Exchanger Services.
- Met-Ocean Weather Monitoring System.
- ODME Maintenance Service
- Marine Services
- Civil Construction Works.
- Inspection & Testing Services
- OCTG services.

Skype Energy Limited can also opt for ISO 14001:2015 Certification and ISO 50001:2018 Certification to adopt environmental friendly practices and support Sustainable Development Goals (SDGs).

### **ConsultGenics Business Partners LLP received ISO/IEC 27001:2022 Certification**

ConsultGenics Business Partners LLP successfully completed the re-certification audit for IAS-accredited ISO/IEC 27001:2022 Certification for Information Security Management Systems (ISMS).

The scope of the certification includes Provision of Financial Advisory, Strategy Consulting & Business Research, Process Consulting & PMO, and Data Analytics.

Apart from this, ConsultGenics Business Partners LLP can also apply for ISO/IEC 27701:2019 Certification for Privacy Information Management Systems (PIMS) to adopt the highest privacy standards. The organization can also apply for the General Data Protection Regulation (GDPR) Certification to adhere to the European Economic Area (EEA) guidelines.

What is ISO/IEC 27001:2022 Certification?

ISO/IEC 27001 Certification is an internationally recognized standard for Information Security Management Systems (ISMS). It helps organizations protect sensitive information through a structured security framework. The certification process includes identifying security risks and applying controls to reduce them.

ISO/IEC 27001 shows a company's commitment to data protection and builds trust among clients and stakeholders. It also helps businesses meet legal requirements and maintain the confidentiality, integrity, and availability of information.

**XpertDox LLC received ISO/IEC 27001:2022 and ISO 22301:2019 Certifications**

XpertDox LLC has successfully completed the Re-Certification audit for IAS-accredited ISO/IEC 27001:2022 Certification for Information Security, Cybersecurity and Privacy Protection – Information Security Management System (ISMS) and ISO 22301:2019 Certification for Business Continuity Management System (BCMS).

The scope of the 27001: XpertDox uses advanced data analytics and proprietary natural language processing to structure, parse and map information from multiple diverse data sources. Its proprietary search engine and mappings improve access to clinical trials and automate the medical coding process. XpertDox’s products include XpertCoding, XpertTrial, and XpertScreen.

22301: XpertDox uses advanced data analytics and proprietary natural language processing to structure, parse and map information from multiple diverse data sources. Its proprietary search engine and mappings improve access to clinical trials and automate the medical coding process. XpertDox’s products include XpertCoding, XpertTrial, and XpertScreen.

### **Bank of Korea Adopts ISO 20022 to Modernize BOK-Wire+ System**

The Bank of Korea (BOK) announced on Wednesday that it has completed the adoption of ISO 20022 for key fund transfer services on BOK-Wire+, its large-value payment system. ISO 20022 is a global standard for financial messaging created by the International Organization for Standardization (ISO). It is widely used for payments, settlements, securities, card services, trade finance, and foreign exchange transactions. The new standard will support BOK's general fund transfers, designated-recipient transfers, and Continuous Linked Settlement (CLS) operations.

The adoption was introduced to improve cross-border payment services. This initiative was chosen as a top priority at the February 2020 meeting of G20 central bank governors and finance ministers.

The new system will create a strong technical and institutional base for faster and more efficient payment services. It will also support better links between cross-border payment systems and improve global consistency in anti-money laundering and counter-terrorist financing (AML/CFT) measures.

The BOK said the adoption will reduce inefficiencies and prevent data loss caused by converting information between different messaging systems. It will also help payment infrastructures work together more smoothly and support consistent trade and finance operations for businesses.

### Silicon Motion Strengthens Automotive Safety Standards with ISO 26262 Certification

The ISO 26262 certification reflects Silicon Motion’s commitment to delivering safe and reliable automotive storage solutions. Silicon Motion Technology Corp. has successfully received ISO 26262 functional safety process certification for automotive applications.

ISO 26262 is an international standard for functional safety in road vehicles. It sets strict requirements for the design and testing of automotive electrical and electronic systems. This certification reflects Silicon Motion’s strong focus on safe, reliable, and high-performance storage solutions for next-generation vehicles.

Nelson Duann, Senior VP of Client & Automotive Storage Business, said, “Achieving ISO 26262 functional safety process certification marks an important milestone in our automotive technology roadmap.” He further added, “Modern vehicles are rapidly evolving into intelligent, software-defined platforms powered by massive amounts of data. Automotive manufacturers therefore require storage solutions that combine performance, reliability, and functional safety compliance. This certification reinforces Silicon Motion’s commitment to delivering trusted automotive-grade storage technologies that enable safer and smarter mobility experiences.”

## Silicon Motion Strengthens Automotive Safety Standards with ISO 26262 Certification

### **Tenon Facility Management India Pvt. Ltd. Ensures Business Continuity with ISO 22301:2019 Certification**

Tenon Facility Management India Pvt. Ltd. has completed the Surveillance-01 audit and received a favourable recommendation for the continuation ISO 22301:2019 Certification for Business Continuity Management System (BCMS).

The scope of the management system includes the Provision of Integrated Facility Management Service And Property Management Services.

Tenon Facility Management India Pvt. Ltd. can also apply for ISO/IEC 27001:2022 and ISO/IEC 27701:2019 Certifications to adopt effective information security and privacy measures.

What is ISO 22301:2019 Certification?

ISO 22301 certification helps organisations build a strong and resilient framework for maintaining business continuity during disruptions. It enables businesses to implement effective tools, response strategies, and recovery plans to minimise operational interruptions and adapt to changing industry demands. The certification supports organisations in protecting critical operations, reducing risks, and ensuring continuity during unforeseen events.

Benefits of ISO 22301 standard for Tenon Facility Management India Pvt. Ltd.

The following are the benefits of ISO 22301 for Tenon Facility Management India Pvt. Ltd.. These are:

It strengthens the ability of Tenon Facility Management India Pvt. Ltd. to manage disruptions while continuing to meet the expectations and requirements of clients and customers.

The image is a promotional banner for ISOCERT NEWS. At the top left, there is a logo for 'ISO CERT NEWS' featuring a red and white circular icon with a pencil and a ruler. To its right, the text 'ISOCERT NEWS' is displayed in large, bold, black and red letters. Below this, a horizontal line with a central banner reads 'EXCHANGE YOUR THOUGHTS'. The main text of the banner, in red and black, states: 'Tenon Facility Management India Pvt. Ltd. Certified for ISO 22301:2019'. At the bottom, the 'Tenon Group' logo is shown in purple, consisting of a stylized 'Y' shape followed by the text 'tenon group' in a lowercase, sans-serif font.

### **SMPL-C Inc. received ISO/IEC 27034-2:2015 Certification**

SSMPL-C Inc. has completed the initial audit for ISO/IEC 27034-2:2015 Certification for Application Security.

The scope of the management system includes the application security framework supporting the design, development, delivery, and support of its AI-powered Compliance-as-a-Service (CaaS) platform, including automated gap assessments, compliance documentation, and workflow optimization, to support Department of Defense (DoD) contractors and related organizations in achieving and maintaining CMMC and NIST cybersecurity compliance.

What is ISO/IEC 27034-2:2015 Certification?

ISO/IEC 27034-2:2015 is an international standard focused on application security management. It provides a structured framework for integrating security into every stage of the application lifecycle, including design, development, testing, deployment, and maintenance. The standard helps organizations identify security risks, implement effective controls, and ensure applications remain protected against cyber threats and vulnerabilities.

SMPL-C Inc. can also apply for ISO 9001:2015 Certification for Quality Management System (QMS) and ISO 14001:2015 Certification for Environmental Management System (EMS) to strengthen operational efficiency, improve environmental performance, and support sustainable growth.

### **Bharat Certis Agriscience Limited demonstrates compliance with Good Manufacturing Practices (GMP)**

Bharat Certis Agriscience Limited has completed the Surveillance-01 audit and received a favourable recommendation for the continuation of Good Manufacturing Practices (GMP). The scope of the management system includes the Formulation of Pesticides & Agro Chemicals.

Bharat Certis Agriscience Limited can also apply for ISO 50001:2018 Certification for Energy Management System (EnMS) to support eco-friendly business practices and the use of renewable energy sources.

What is Good Manufacturing Practices (GMP)?

Good Manufacturing Practices (GMP) certification ensures products are consistently manufactured and controlled according to quality and safety standards. It helps organizations maintain hygiene, reduce risks, and comply with regulatory requirements.

Benefits of Good Manufacturing Practices (GMP) for Bharat Certis Agriscience Limited

Bharat Certis Agriscience Limited can achieve several benefits by complying with the Good Manufacturing Practices (GMP)

- Ensures consistent product quality through standardized manufacturing and quality control processes.

The image is a promotional graphic for ISO CERT NEWS. At the top left is the ISO CERT NEWS logo, which includes a red and white circular icon with a pencil and the text 'ISO CERT NEWS'. To its right, the words 'ISOCERT NEWS' are written in large, bold, black and red letters. Below this, a horizontal line with a central banner reads 'EXCHANGE YOUR THOUGHTS'. The main text in the center reads 'Bharat Certis Agriscience Limited Certified for GMP' in red and black. Below this is the large, stylized 'BCA' logo in blue and green. At the bottom, the text 'Bharat Certis AgriScience Ltd.' is written in blue, followed by 'A Group Company of Mitsui & Co., Ltd., Japan' in a smaller blue font.

### **China Takes Global Lead on New ISO Standard for Power Conductor Corrosion**

China has taken the lead in developing a new international standard for corrosion testing of conductive materials used in power transmission systems. The new standard is expected to improve the safety, reliability, and long-term performance of power grids across the world. It will help power companies better evaluate how conductive materials perform under harsh environmental conditions and reduce the risk of equipment failure. This development also highlights China's growing role in shaping global standards for advanced energy infrastructure and grid technology.

The standard, titled "Corrosion of metals and alloys – Testing methods for corrosion of conducting alloys in AC electric current condition," was officially published by the International Organization for Standardization (ISO) recently.

Power transmission and distribution lines around the world now extend beyond 80 million kilometers. Conductive materials such as copper, aluminum and their alloys play a major role in transmission cables and related hardware. During live operation, these materials are constantly exposed to alternating current, changing electromagnetic fields and atmospheric corrosion.

## China leads new ISO standard on power conductor corrosion

### Young Pipes received ISO 9001:2015 Certification

Young Pipes has successfully completed the surveillance 01 audit and received a favourable recommendation for the continuation of their IAS-accredited ISO 9001:2015 Certification for Quality Management System (QMS).

The scope of the management system includes the Manufacture and Supply of Pre-Stressed Concrete Poles, Ready Mix Concrete, Grooved Rubber Sole Plates, Composite Grooved Rubber Sole Plates, Nylon Chord Enforced Grooved Rubber Sole Plates, Other Rubber Moulding.

Young Pipes can apply for ISO 14001:2015 and ISO 50001:2018 Certification to adopt eco-friendly business practices and comply with the Sustainable Development Goals (SDGs) framework. However, ISO 45001:2018 Certification for Occupational Health and Safety Management System helps Young Pipes build safe and productive workplaces.

What is ISO 9001:2015 Certification?

ISO 9001 certification is a globally recognized standard that shows an organization's commitment to quality and consistency. It helps businesses build a strong Quality Management System (QMS) that improves processes, increases efficiency, reduces errors, and supports continuous improvement.

ISO 9001 certification also helps organizations gain customer trust, improve their reputation, and achieve a stronger competitive position in the market.
